

In the claims:

Please amend claims 1-11. Please cancel claims 12-16. The Claim Listing below replaces all previous versions of the claims.

1. (Currently Amended) An eye wipe, comprising:
~~an eye wiping surface;~~
~~a second surface opposite said eye wiping surface; and~~
~~a member on~~ material forming one cavity with one opening the second surface
configured to engage receive a finger and shaped, with a finger inserted therein, to fit
in a region of an eye near its tear duct, the material adapted to remove biological
matter released from the eye at a position at or near the tear duct.
2. (Currently Amended) The eye wipe according to claim 1, wherein said ~~member is~~
~~coupled to said second surface~~ material includes a first material and a second material
coupled together to form an elongate elongated cavity.
3. (Currently Amended) The eye wipe according to claim 2, wherein the cavity is
substantially tubular ~~having an~~ with the opening at one end and tapering at the other end.
4. (Currently Amended) The eye wipe according to claim 1, wherein said ~~eye wiping~~
~~surface is substantially absent of fibrous elements~~ material is a non-fibrous material.
5. (Currently Amended) The eye wipe according to claim 1, wherein said ~~eye wiping~~
~~surface, second surface, and member are composed of~~ material is a unitary piece of
material.
6. (Currently Amended) The eye wipe according to claim 1, wherein said ~~eye wiping~~
~~surface~~ material is operable to absorb moisture.

7. (Currently Amended) The eye wipe according to claim 1, wherein said ~~eye-wiping surface~~ material has at least one of the following shapes: square, rectangular, oval, ~~and~~ or circular.
8. (Currently Amended) The eye wipe according to claim 1, wherein said ~~eye-wiping surface~~ material has a maximum dimension of less than about two inches.
9. (Currently Amended) The eye wipe according to claim 1, wherein an eye irritant solution is substantially absent from said material ~~eye-wiping surface is substantially absent of an eye irritant solution.~~
10. (Currently Amended) The eye wipe according to claim 1, wherein ~~the eye-wiping surface includes~~ said material is at least partially saturated with a non-eye irritating solution.
11. (Currently Amended) The eye wipe according to claim 1, wherein ~~the eye-wiping surface includes~~ said material is at least partially saturated with a solution operable to remove makeup.

17. (Withdrawn) A method for dispensing eye wipes, said method comprising:
forming a series of eye wipes; and
storing the series of eye wipes in a dispenser in a manner facilitating separation of an eye wipe from the series of eye wipes.
18. (Withdrawn) The method according to claim 17, wherein said forming includes applying a perforation between two eye wipes in the series of eye wipes.
19. (Withdrawn) A dispenser operable to store and dispense eye wipes, said dispenser comprising:
a bottom member configured to store a plurality of eye wipes and dispense a single eye wipe at a time; and
a lid operable to engage said bottom member.
20. (Withdrawn) The dispenser of claim 19, wherein said bottom member has a maximum length or major axis of about two-inches.
21. (Withdrawn) The dispenser of claim 19, wherein said bottom member and lid are operable to seal liquid when coupled.
22. (Withdrawn) The dispenser of claim 21, further comprising a mechanism coupled to an exterior surface of either said bottom member or lid and operable to be secured to another object.
